5 A safer home 7

Chapter One

Welcome from Daniel Island

We treat opioid, alcohol, kratom and other substance use for adults from Daniel Island at our West Ashley office.

Chapter Two

Family support matters

Family support can play a major role in recovery. Backing the plan helps more than pushing for a quick stop.

Chapter Three

Care for the caregiver

Caregivers should make their own health a priority too, so make room for your own support.

Chapter Four

Privacy and consent

Providers generally need your loved one's written consent before discussing their care with you.

Chapter Five

A safer home

Store treatment medicine locked up, and keep an overdose-reversal spray where everyone can find it.

Epilogue

You do not have to do this alone.

Helping someone you love take a first step is hard. Our For Families page gives practical next steps for relatives.

Ready to write your next chapter?
