5 Options after an evaluation 7

Chapter One

Welcome from Hanahan

We treat kratom, 7-OH, opioid, alcohol and other substance use for adults from Hanahan at our West Ashley office.

Chapter Two

What the law says

South Carolina bans kratom sales to anyone under 21 and requires labels to list 7-OH content.

Chapter Three

Labels are not promises

Product strength varies, and kratom products are not regulated like medicines. Bring the label to your visit.

Chapter Four

Care around early starts

Tell us your schedule when you call, and we look at what fits within our weekday hours.

Chapter Five

Options after an evaluation

Care starts with a medical evaluation, and a supervised taper is one option. Some people need more support.

Epilogue

Stopping is easier with a plan.

Daily kratom or 7-OH use can be hard to stop alone. A first visit is a conversation about what you use and what you want next.
