5 Across the Connector 7

Chapter One

Welcome from the island

We treat opioid, alcohol, kratom and other substance use for adults from every part of James Island.

Chapter Two

A risky mix

Alcohol and opioids both slow breathing. Together the effect can be far stronger than either one alone.

Chapter Three

Timing matters

Drinking within a few hours of using opioids or sedatives can cause serious harm.

Chapter Four

One plan for both

Treatment can address opioid use and drinking together, with medicine and regular follow-up.

Chapter Five

Across the Connector

Our West Ashley office is a short drive away, and many follow-up visits can be by secure video.

Epilogue

Safer starts today.

Drinking on top of opioids is a medical problem with medical answers. A first visit is a practical place to begin.
