4 No set end date 6

5 Coverage first 7

Chapter One

Welcome from Summerville

We treat opioid, alcohol, kratom and other substance use for adults from Summerville at our West Ashley office.

Chapter Two

Moving with your care

If you move here already in treatment, call as soon as you know so your care continues without a gap.

Chapter Three

Fewer trips

Our hybrid model combines office visits with virtual visits, so treatment need not mean another drive.

Chapter Four

No set end date

Treatment length is tailored to each person. Any change, including a taper, is planned with your provider.

Chapter Five

Coverage first

We verify your coverage before treatment begins, and self-pay rates are available.

Epilogue

Care that moves with you.

A new town should not mean starting over. One call lets us plan your first visit around the medicine you have left.

Ready to write your next chapter?
