Chapter One

Welcome from Moncks Corner

We treat opioid, alcohol, kratom and other substance use for adults from Moncks Corner at our West Ashley office.

Chapter Two

One plan for both

Mood or anxiety can be part of the same plan as substance use treatment, managed by one team.

Chapter Three

Bring a full list

Some anxiety medicines can cause serious side effects with substance use treatment, so share every medicine you take.

Chapter Four

Do not stop on your own

Stopping some anxiety medicines suddenly can be dangerous. Talk with your provider before any change.

Chapter Five

Fewer long drives

For residents farther out in the county, many visits can be done by secure video instead.

Epilogue

Both can get better together.

Mood and substance use often travel together. One plan, built with one team, keeps both in view.
