Chapter One

Welcome from Mount Pleasant

We treat alcohol, opioid, kratom and other substance use for adults from Mount Pleasant at our West Ashley office.

Chapter Two

Start where you are

You do not have to stop drinking before your first appointment. If you drink heavily every day, do not stop suddenly alone.

Chapter Three

Medicine that helps

The approved medicines for alcohol use disorder are not addictive, and they can be used with or without counseling.

Chapter Four

Fewer bridge crossings

Many visits can be done by secure video, so treatment need not add more trips across the water.

Chapter Five

Moving your care

If you arrived already in treatment, call before your supply runs low so your care continues without a gap.

Epilogue

Help that meets you here.

Cutting back or stopping is easier with support. A first visit is a conversation about what you want, not a test you have to pass.

Ready to write your next chapter?
